These slides provide a good overview of what's happening in the agency pertaining to fracking. Does it make sense to use this set of slides at the Deputies lunch when we talk about this issue?

Wendy -- Sorry to bother you at your retreat, but OCIR is asking if we want to send someone along to the briefing for Senator Wyden tomorrow. This is a very last minute request.

The agenda for the briefing appears below. They were pulling together a slide set from previous power points -- the only slide dealing with OCSP is slide 11 in the following power point. If you would like to have any changes to the slide, just let me know.

Again, my apologies.
